General Agent Western States, 131 North Meridian street. Indianapolis. Ind. ian street. Indianapolis, Ind.

FINANCE AND BUSINESS.

GENERAL MARKET REVIEW. MONEY NOTES.

It is significant that on last Friday over \$2,000,000 in currency was shipped from New York city to the West. Haif of the amount went to Chicago and the rest to Cincinnati and Louisville. On the same day \$500,000 went to New Orleans and Mobile. This shows that the produce move-ment is turning the money tide this way. The Chicago Tribune of Monday morning

The flow of currency from this city, as well as from Cincinnati, St. Louis, and other packing points, to the hog raising regions has been unremitting for two weeks, and has been kept up by heavy remittances of currency from New York. How much has gone out is not accurately known, but probably not less than four or five millions from Chicago alone this week. Larve amounts of New York exchange have been thrown on the market during the week, and the price has been as low as \$1 discount between banks for \$1,000. The ruling price has been 50@75c discount, and it closed steady at that rate. The low price of silver I and in Europe promises to be permanent, and in Siding this connection two new silvercoins for immediate circulation are talked of as likely be authorized at the next session of Co gress-one a 121/2 cent piece, and the othe

REDUCTION OF WOOLEN MANUFACTURE. The New York Bulletin of Nov. 10, says: After the roce ut annual meeting of the National Association of wool manufacturers, a meeting of n. anufacturers of fancy cassimeres was convened, at which the representatives of gan 10 21 mills voted to stop 25 per cent. of t. heir machinery for three months from Nov. 1. We are indebted to the secretary of the meeting, Mr. F. R. Townsend, for the collowing statement of mills which formally pledged themselves to this movement, it cluding also an approximate estimate of the capacity o proximate estimate of the capacity of the

several factories:

that nearly all the largest woolen manufactures have stopped from twenty-five to fifty per cent. of their machinery; and there is no apparent prospect of its being early put in operation again. The low prices at which certain styles of woolen goods, eswhich certain styles of woolen goods, especially fancy cassimeres, have been selling this season afforded reason enough for the action taken by the manufacturers. Producers appear to have inadequately appreciated the extent of the prevailing commercial reaction; and hence their production has exceeded the current mants of the corre

REVIEW OF THE HOME MARKETS. WEEKLY REVIEW OF THE INDIANAPOLIS WHOLESALE MARKETS.

MONBAY EVENING, November 23. The market for the last week was characterzed by a general firmness and a tendency toward business activity. Not a great deal was done for the stocks of grain in particular were light and buyers were more namerous then sellers. It is pretty clear that the grain market will retain its tone flough oatsand corn have been somewhat over excited. To day there was a feelin that hogs must drop back a little, the high prices aringing out an over supply despite all the reparts of scarcity. There are over 12,000 head now in the yards of Kingan & Co., and all our packing houses are well supplied. Still the disposition to pack at present rates is pretty general throughout the state, and no serious decline appears to be possible.

The dry g ods trade is steady and satisfactory.

Leading grocer writes; "Business shows some improvement over that of the week previously noted, and prices of many goods in the jobbing grocery trade are higher and close firm. Pearl barley has advanced '3c, and oatmeal will be higher. Hominy unchanged but demand increases. Syrups remain duil and were lower, but the recent flurry in sugars will give firmness to prices again, lack of demand threw offers of low prices on the market which were actually as weeks. No. measurement over the market which were actually as weeks. No. measurement over the market which were actually as weeks. No. measurement over the market which were actually as weeks.
